(f) Whenever boxes or barrels alleged to have been manufactured from American shooks or staves are shipped to the United States from a person abroad other than the one to whom they were exported from the United States, the importer shall be required to obtain from the foreign consignee to whom the shooks or staves were originally exported from this country the certificate or certificates, Customs Form 4455, covering the exportation of the shooks or staves from the United States, or an extract therefrom signed by such consignee, showing the number of shooks or staves covered by such certificate or certificates, together with the number of superficial feet of such shooks or staves. Such Form 4455, or extract therefrom, shall be filed by the importer in connection with the entry of the boxes or barrels.

(g) Accounts shall be kept by the director of the port of exportation of the shooks and staves as to each exportation thereof and as to the returns thereof in boxes, barrels, etc. Notifications of such returns shall be given to the port of exportation by the director of the port of importation. When returns in the form of boxes, barrels, etc., entirely account for the shooks and staves exported as shown on the appropriate Customs Form 4455, the port director maintaining the account shall so inform the port director making inquiry about the merchandise being imported and alleged to contain shooks or staves covered by the particular exportation.

(h) A record of cloth boards of domestic manufacture exported to be wrapped with foreign textiles shall be kept by the port director in a similar manner as for shooks and staves. Cloth boards of domestic manufacture are conditionally free of duty under Chapter 98, subchapter 1, Harmonized Tariff Schedule of the United States (HTSUS). If such boards are advanced in value or improved in condition while abroad, free entry shall be denied on importation.

# § 10.6 Shooks and staves; claim for duty exemption.

An importer, seeking an exemption from duty on account of boxes or barrels made from American shooks or staves, must make such a claim on Customs Form 4455 at the time of filing the entry. Upon receipt, from the director of the port of exportation of the shooks and staves, of corroboration that the records of exportation do not conflict materially with such a claim, the exemption may be allowed. If the claim for an exemption is disallowed in full or in part, the importer may file a request within 15 days of the date of the port director's notice to him of any disallowance, for referral of the question to the Commissioner of Customs for review.
